

FALL AND WINTER TRAINING OPPORTUNITIES

Sharpening our skills or finding training for staff or commission members should be high priority. To make this chore easier, I have compiled a list of activities in the Western United States or those that have special significance. Please take the time to review the list and follow the links. There are many other training opportunities on the East Coast and if you need more information you can either follow the links or contact me specifically about your needs. The following is a list of activities you should strongly consider participating in or send a delegate to represent your organization. For more information contact Russ Holter 360-586-3533.
